Caring for clean environments

Designed with the premium hotel and restaurant market in mind but also suitable for banking, health clubs and spas, and for those clients who just want their sense of style to extend into the washroom.

Solar Airfresh

A solar-powered fragrance system that counteracts unpleasant odours by dispensing a choice of hypoallergenic fragrances. Suitable for reception areas and meeting rooms as well as washrooms

Calmic Sanitizer

Designed to provide ongoing protection against the build-up of scale and prevent bacterial infection in WCs by releasing a specially formulated solution into the last part of the flush

Modular Soap Dispenser

Designed to provide an easy-to-use handwash solution, ensuring bacteria are removed from hands. A wide choice of foam or liquid refills is offered

Compact Toilet Seat Sanitizer

The sanitizer unit dispenses an alcohol-based solution that the user applies to a tissue to wipe around the toilet seat, reducing the risk of contamination and thereby improving hygiene confidence

Twin Roll System

This dispenser houses two high capacity toilet rolls, which reduces the level of servicing required

Sanitact Sleeve

The no-touch Sanitact unit slides into this stylish metal sleeve to complement the other Metalskin products. The sleeve is available for both standard and compact versions

Roller Towels

Dispenses a fresh portion of towel for each user. Still the user's choice for quick and comfortable hand drying

Paper Hand Towel Dispenser

Dispenses individual interleaved paper hand towels that are kept clean, dry and free from contamination
